

The C. G. Jung Foundation presents

PATH TO THE SOUL

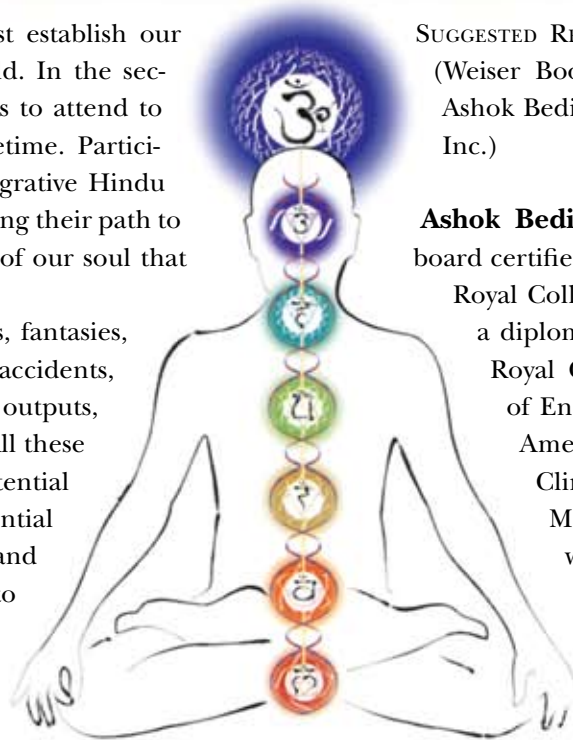

Attending to the Whispers of our Soul

a daylong workshop led by

Ashok Bedi, M.D.

In the first half of life, we must establish our ground to survive in the outer world. In the second half of life, our soul beckons us to attend to our Dharma or Purpose in this lifetime. Participants will be introduced to the integrative Hindu and Jungian perspective on establishing their path to their soul, by decoding the symbols of our soul that incarnate in our life.

The symbols manifest as dreams, fantasies, complexes, synchronistic events, accidents, relationship tangles, and creative outputs, medical and psychiatric symptoms. All these incarnations of the soul carry a potential symbol. These symbols have the potential to renew and rekindle the vitality and purposefulness of our life. Methods to decode and honor these soul symbols will be explored using case vignettes and film clips.
