Treatment Beyond Medicine - Part 1

ENGAGING THE SOUL

with

Ashok Bedi, M.D.

Saturday, November 1st, 2008 9:00 am to 3:00 pm*

Modern Medicine and Psychiatry has made tremendous strides in treatment of medical, psychiatric and addiction disorders and facilitating health and personal growth. However, while modern medical care treats the symptoms and puts the fire out, the gas leak is not identified and the person is neither happy nor healed. For deeper healing, we have to move from the horizontal to the vertical axis of treatment, from surface to the depth, from the manifest to the latent issues, from mundane concerns to the sacred dimension of life. Analytical and Eastern healing traditions have timeless paradigms to heal the soul; the well source of health, healing and wholeness. In a series of presentations, psychiatrist, Jungian Psychoanalyst and author Ashok Bedi, M.D. will introduce the participants to the analytical and eastern methods of attending to this deeper healing.
